Supervising DEP iPads with Apple Profile Manager

Log into your Apple DEP Account.

Assign the serial numbers of the iPads you've purchased through the DEP program to your designated DEP Server

Manage Devices

1. Choose Devices By:

◉ Serial Number ◯ Order Number ◯ Upload CSV File

F9GQV0WNFCM5

2. Choose Action:

| Assign to Server ⌄ | Mac mini ⌄ |

OK

Open Profile Manager

Create a Device Group and updated Settings, DO NOT add any profiles to the Device Group.

Managed macOS Administrator Account

☑ Create managed macOS administrator account
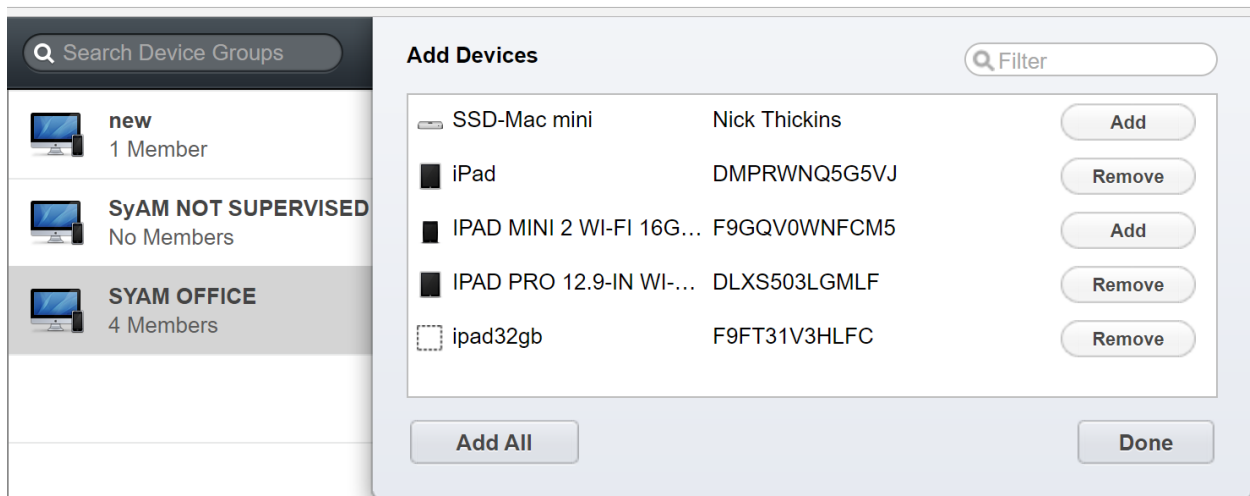

Full Name: `syam`

Account Name: `syam`

Password: `••••••••••`

Verify: `••••••••••`

☑ Show managed administrator account in Users & Groups

Add the iPads to the Device Group that you created with configuring Supervision settings.

Now power on the DEP iPad that has been added to the Device Group, add in a Wi-Fi network connection and choose Skip Configuration where is presents the iPad can automatically be configured.

This will put the iPad into supervision mode ready to be enrolled into the SyAM MDM.

Once the iPad has been enrolled you will see the Supervised will state True

	id ▲	Device Name	User	IsActive	LastCheckIn	Model	Model Name	Operating System	Serial Number	Supervised
	21	iPad	syam	True	7/11/2017 3:25:52 PM	ME276LL	iPad	9.3.3	F9GQV0WNFCM5	True
